

Kindergarten Education Scheme

Activity of Kindergarten Activity Grant

2025-2026 school year

K3 students

Name of Activity

Starry Sky Odyssey: Venturing into the Hong Kong Space Museum

Objective(s)

- To develop an initial understanding of the fundamental members of the solar system, thereby stimulating children's interest in astronomy and space science.
- To grasp elementary concepts of natural phenomena, such as the cycle of day and night and the twinkling of stars.
- To cultivate observation skills, curiosity, and an exploratory spirit through engagement with the museum's interactive exhibits.

Brief Descriptions

- Stepping into the shoes of little astronauts, children journeyed through the Cosmos Showroom and the Space Exploration Showroom. By operating hands-on exhibits, abstract knowledge of space had be rendered tangible and accessible.
- Discovered the secrets of the solar system by attending a 3D dome show in the Space Theatre.
