Name of School

**2024-2025**

School Year

**K2**

Grade Level

**Name of Activity**

Sichuan face-changing performance

**Objective(s)**

- To appreciate the traditional Chinese face-changing performance and experience the artistic charm of traditional opera.
- To introduce young children to the unique aesthetics and performance style of Chinese opera.
- Through simple interactive activities, allow children to experience the skill behind face-changing and enhance their awareness of preserving intangible cultural heritage.

**Brief Descriptions:**

1. The face-changing master introduces the history of this traditional art, helping children understand how it evolved from Sichuan opera.
2. The master swiftly changes between classic masks, showcasing how colors like red, black, and white represent different character traits and emotions.
3. The master demonstrates some basic techniques (e.g., fan-assisted face-changing) to satisfy curiosity while keeping the core secrets, preserving the art's mystique.
4. The master invites children to participate in a simple face-changing experience (e.g., waving a flag while wearing a prop mask), adding fun and engagement.
5. Conclusion: Children share their thoughts and feelings about the interactive experience.
